User Guidance Webinar

System of Assurance of Net Metering Eligibility
www.MassACA.org

January 17, 2013

Goals

- Major concepts and vocabulary
- MassACA.org
  - New user registration
  - Applications for Cap Allocations (ACAs)
- ACA Review, Timelines, and Reporting
- Questions and Answers

Key Takeaways

- ***Prepare Your Team***
  - Only individuals legally authorized to submit an Application for Cap Allocation (ACA) on behalf of the Host Customer can start and submit ACAs.
  - Representatives (e.g., developers, consultants) can be invited to help existing ACAs by registered Host Customers.
- ***DPU Public Entity ID***
  - Host Customers applying for space under the public cap will need a DPU Public Entity ID to access the System of Assurance.
  - Copy of application form is available at MassACA.org.

Key Takeaways

- **Electronic Payment**
  - The application fee of $100 is due before the submission of an ACA.
  - Any user assigned to the ACA may pay the fee on behalf of the Host Customer.

- **Self Certification**
  - Users self-certify that information provided is complete and accurate.
  - The Administrator's authority to revoke cap allocations extends into the Reservation Period (e.g., users are found to be untruthful, ACAs incomplete).

Key Takeaways

- **_Transitional Period_**
  - Facilities that will receive authorization to interconnect by April 24, 2013 (12 PM) can apply for a cap allocation under the Transitional Period provision.
  - Stakeholders may not simultaneously use the Transitional Period provision and submit an ACA.
  - The Administrator will not begin to announce ACA determinations (i.e., complete, incomplete) until Feb. 7, 2013.

- **_Required Permits and Approvals_**
  - Users are required to provide "all necessary governmental permits and approvals to construct the Facility with the exception of ministerial permits, such as a building permit…" (DPU Order 11-11-D, Appendix A)
  - The Administrator will not be providing users with comprehensive permitting guidance.

BACKGROUND:
# SYSTEM OF ASSURANCE OF NET METERING ELIGIBILITY

Introductions

- The Cadmus team
  - Cadmus
  - Vanasse Hangen Brustlin, Inc. (VHB)
  - Noble & Wickersham LLP
- Distribution Companies
  - NSTAR Electric Company, Unitil, Western Massachusetts Electric Company, National Grid
- MA Department of Public Utilities (DPU)

Net Metering Refresher

- An incentive program for grid-connected renewable energy facilities
  - Utility company compensates the Host Customer of a facility for delivering electricity to the grid
  - Host Customer: the utility company's customer of record for the net metering (NM) facility and the recipient of NM services
  - Compensation comes in the form of NM credits applied to Host Customer's utility bill (or other accounts, as designated by the Host Customer)

Additional Resources: Net Metering

- Net Metering 101 Presentation, MA DPU

- Net Metering FAQs, MA DPU

- 220 CMR 18.00: Net Metering

- DSIRE > Massachusetts > Net Metering

Why is the System of Assurance Important?

- The aggregate capacity of NM facilities is determined by law.
  - 3% of each utility's peak load for private net metering facilities
  - 3% of each utility's peak load for public net metering facilities
- The economic viability of renewable energy projects often depends on these services.

*How can stakeholders be assured
that a proposed facility will
receive net metering services?*

MA Public Cap
(3% of Each Utility's Peak Load)

Currently, stakeholders can see the available capacity under the cap and installed capacity, but they cannot tell if capacity will be available by the time they are ready to build.

MA Private Cap
(3% of Each Utility's Peak Load)

System of Assurance

- The Dept. of Public Utilities created the System of Assurance of Net Metering Eligibility to provide stakeholders' certainty:
    1. Of the status of aggregate NM capacity; and
    2. Of their facility's eligibility for NM services
- The Cadmus team created a web-based application (MassACA.org) to:
    1. Report on the status of aggregate NM capacity; and
    2. Receive host customers' **Applications for Cap Allocations (ACAs)**
- Facilities that meet eligibility requirements and submit complete ACAs will receive a cap allocation.
- An approved ACA confirms, for a limited time, that the facility is eligible to receive NM services if the rules of the System of Assurance are followed.

How do Host Customers Secure a Cap Allocation?

- All non-exempt facilities must use the System of Assurance to get a cap allocation.

- At minimum, this requires:
    1. Evidence of site control
    2. An executed Interconnection Service Agreement (ISA)
    3. All required non-ministerial permits and approvals

- The Administrator reviews ACAs and approves facilities for cap allocations.

Logistics

- Need assistance?

  Contact the Administrator at help@massaca.org or call the MassACA helpline at (877) 357-9030

- Questions regarding NM rules may be directed to Laura Bickel (laura.bickel@state.ma.us, 617.305.3588) or Nathan Phelps (nathan.phelps@state.ma.us, 617.305.3707) with the MA DPU

QUESTIONS?

MASSACA.ORG: NEW USER REGISTRATION & USER MANAGEMENT

New User Registration & User Management

Step #	Description
1	Create a user account
2	Manage user accounts

Flow diagram: User Registration → ACA Process → ACA Review

Register a new Account.

Submit

Beginning January 17, 2013 at 12:00 PM, two types of users can pre-register with the System of Assurance:

- *Individuals (HCAdmins) in a lead role for the Host Customer with legal authority to submit ACAs on Host Customer's behalf*
- *Individuals (Representatives) not affiliated with a particular Host Customer*

Help content will be available to users throughout the System of Assurance.

Register a new Account.

Select an account type

Massachusetts System of Assurance of Net Metering Eligibility - Terms and Conditions

Help ?

Waiver/Release/Exculpatory Clause for Users of the System of Assurance

By checking this box, in consideration for the use of the System of Assurance of Net Metering Eligibility ("System of Assurance"), established pursuant to G.L. c. 164, § 139(g), the USER HEREBY WAIVES ANY and ALL CLAIMS against the Administrator, the Massachusetts Department of Utilities ("Department"), or the Distribution Companies, including Fitchburg Gas & Electric Company, d/b/a Unitil, NSTAR Electric Company, Massachusetts Electric Company and Nantucket Electric Company d/b/a National Grid, and Western Massachusetts Electric Company (together, the "Distribution Companies"), as well as any of their agents, arising out of or in connection with the System of Assurance. This waiver includes damages incurred by the User for expenses, or loss of income, financing or use arising from the handling, processing, denial, selection or approval of information or of applications associated with the System of Assurance by the Administrator, by the Department, or by the Distribution Companies. As set forth in Department of Public Utilities Order D.P.U. 11 11-D, Appendix A, Section 10 (2012), the User agrees that the Department shall have exclusive jurisdiction for any complaint or dispute arising out of the Administrator's or Distribution Companies' conduct. Further, the User understands and agrees that the User is solely responsible for the accuracy, completeness and sufficiency of information and of applications. The User also understands and agrees that the Administrator's processing of information and of applications is not a review or determination of the safety, suitability or quality of any equipment, installation or interconnection.

☐ I accept these Terms and Conditions.

Requirements for Public Net Metering Facilities:

☐ Is the Facility a Class II or III Net Metering Facility owned or operated by a Municipality or Other Governmental Entity?

☑ Has project authorization been obtained (e.g., through Town Meeting or approval of governing body)?

☐ Is the Municipality or Other Governmental Entity assigned 100% of the output (power)?

☑ Is the Municipality or Other Governmental Entity the Host Customer?

☐ If allocating net metering credits, allocates only to the accounts of other municipalities or other government entities?

Requirement for Special Public Facilities:

☑ Will the Facility be owned and operated by a Municipality or Other Governmental Entity (recognized as a Public entity by the MA DPU)?

☑ Will the Facility be located on property owned or leased by the Municipality or Other Governmental Entity (recognized as a Public entity by the MA DPU)?

Interconnection Service Agreement (ISA)

Has an Interconnection Service Agreement been executed?: ⦿ Yes   ○ No

Please Note: An executed Interconnection Agreement is required to file an ACA (except for public projects with the "Special Public" designation).

Interconnection ID Number: 421-1976

Please upload a copy of the executed Interconnection Service Agreement:
All documents shall be submitted electronically in PDF format. If you are unable to submit documents electronically, please contact the Administrator at your earliest convenience for assistance.

Interconnection Service Agreement: ISAExecuted.pdf   Upload...

Site Control:

Please Note: An ACA cannot be filed if you cannot demonstrate suitable site control. Additional documentation may be required.

Do you (Host Customer) own the site at which the facility will be installed? ⦿ Yes   ○ No

If Yes, no additional information is needed at this time.
If No, please proceed to the next

What documentation will be provided to demonstrate site control?
- ⦿ Lease Agreement
- ○ Signed Option
- ○ Other:

Site Control Document: SiteControlDoc.pdf   Upload...

Executed Interconnection Service Agreement (ISA) for the facility must be uploaded.

Evidence of site control is required, except where the Host Customer owns the site at which the facility will be installed.

The list of permits included in this tool is not intended to be exhaustive, Applicants and Representatives should review permits obtained and uploaded prior to submitting an ACA to ensure all non-ministerial permits have been submitted as a part of the ACA for this Facility. Any required permits not submitted as part of your ACA may result in an incomplete application finding, or withdrawing an offer of Cap Allocation or place on the Waiting List.

☐ I certify that all permits required for the construction and operation of this facility have been secured.

> Users must self-certify that all necessary governmental permits and approvals to construct the facility with the exception of ministerial permits are included.
>
> Users can flag documents as confidential.

Permits and Approvals

- A **ministerial permit** is a permit that is granted based upon a determination that the request complies with established standards. Such determinations are arrived at objectively, involve little or no discretionary judgment, and are usually issued by a single official or his/her designee. Non-ministerial permits are permits in which one or more officials considers various factors and exercises some discretion in deciding whether to issue (typically with conditions) or deny permits.

Save Application

Only individuals legally authorized to submit an ACA on behalf of the Host Customer (HCAdmins) may submit ACAs.

Once submitted, the HCAdmin will receive a confirmation email with the timestamp of their ACA.

Pay Reservation Fee

- Once reviewers at Cadmus deem an ACA Complete, the Host Customer has 15 Business Days to submit a Reservation Fee of $3.15/kW

- Payment will be made through a third party payment system.

QUESTIONS?

ACA REVIEW & DISPUTE RESOLUTION

ACA Review

- Each ACA will be reviewed by the Administrator prior to a determination (Complete/Incomplete)

- ACAs will be prioritized based on the date and time they are **Submitted** to the system

- Users will receive notifications, confirmations from the Administrator via e-mail (administrator@massaca.org)

- The Administrator's authority to revoke Cap Allocations extends into the Reservation Period

Dispute Resolution

- Applicants aggrieved by the Administrator's determination may, within 15 Business Days of the determination, file a request to resolve the dispute.

- The parties will make a good faith attempt to resolve dispute informally. If the dispute has not been resolved informally within 30 Business Days, an applicant may initiate arbitration.

- The applicant shall pay the arbitrator's fees and costs.

- Either party may petition the Department if aggrieved by the arbitrator's decision.

OBTAINING A CAP ALLOCATION UNDER THE TRANSITIONAL PERIOD PROVISION

Transitional Period Provision

- Facilities that will interconnect by 12:00 PM on April 24, 2013 may be granted a cap allocation, per Section 4(a) of the System of Assurance.

- Host Customers must submit a completed Transition Period application (see MassACA.org) to the Administrator (administrator@massaca.org) between January 24, 2013 at 12:00 PM and February 7, 2013 at 12:00 PM.

- Parallel filings are prohibited

- No determinations will be made on submitted ACAs until the Application portion of the Transition Period has expired

RESERVATION PERIOD & QUARTERLY REPORTING

Reservation Period Overview

Technology	Special Public Facility	Permits and Approvals Due	Reservation Period
Solar or Other Facility	N/A	on Submission	9 Months (274 Days)
	Special Public Facility	9 Months (274 days)	18 Months (548 Days)
Wind or Agricultural Facility	N/A	on Submission	18 Months (548 Days)
	Special Public Facility	9 Months (274 days)	27 Months (821 Days)

To exit the System of Assurance, the Host Customer must provide the Administrator with authorization to interconnect from the utility company.

Online Quarterly Reporting & System Changes

- Each Host Customer with a Cap Allocation or position on the Waiting List shall submit to the Administrator Quarterly Reports via MassACA.org on **Facility Status:**

  - **No Change**

  - **Changed** (detailed description), or

  - **Authorization to Interconnect Received**

- Host Customers may submit as many quarterly reports for a system as necessary, but one per quarter **must** be received to maintain a Cap Allocation

Quarterly Reporting & System Changes

- **Permissible System Changes:**
  - Host Customer Changes
  - Facility Ownership Changes
  - Facility Equipment, if it does not require a new ISA
  - A change in the amount of Net Metering Cap requested, if there is available capacity and it does not require a new ISA
- **Prohibited System Changes:**
  - Changes to the Cap (Public/ Private)
  - Change to the technology
  - Relocation to a non-contiguous property

TRACKING UTILIZED, RESERVED, AND AVAILABLE CAP SPACE

Tracking Utilized, Reserved, & Available Cap Space

- Information about cap space utilized, reserved, and available will be available to all.

- Informal figures will be provided in real time. Actual figures will be provided at the end of each month.
